

REMARKS

By this amendment applicant has cancelled claims 10 and 11, and amended claims 1, 13, 14 and 16.

A signed Declaration by the inventors of the subject matter of the claims as amended is attached herewith. This Amendment has modified subject matter in the application which requires a signed Declaration by only two of the inventors originally set forth on the Application Data Sheet. Therefore, pursuant to 37 CFR 1.48(f)(1), filing of the subject Declaration of Inventorship properly corrects inventorship in the subject application. A corrected Application Data Sheet is also submitted herewith for entry in the present application.

Applicant believes no fee to be due for the attached filing, however, should additional fees be due in order to prevent the abandonment of this application, please consider this as authorization to charge Deposit Account No. 501612 (Warn, Hoffmann, Miller & LaLone, P.C.) for any such fees due. A duplicate copy of this document is enclosed for this purpose.

Applicant respectfully requests entry of the above specification amendments and claim amendments. Applicant submits that no new matter has been added. Applicant respectfully submits that the application is in condition for substantive examination, and such examination is respectfully requested, and that the claim amendments are requested to more particularly characterize the invention.
